

## LIST OF AVAILABLE E-LEARNING COURSES DEVELOPED BY INTENSE PROJECT PARTNERS

10/02/2022

**Danh sách các Khóa học E-learning phát triển bởi các trường thành viên trong khuôn khổ hợp tác dự án INTENSE.**

Thông tin chi tiết về E-learning có tại: <http://intense.network/e-modules/>

- =====
- Water erosion of soils.
  - Assessment of the radioactive pollution of agroecosystems.
  - Pollution of ecosystems with mineral fertilizers.
  - Agricultural and environmental effects of atmospheric pollution.
  - Optimization of environmental management.- Environmental policy of Ukraine.
  - Geomatics and modelling.
  - Academic writing and presentation (in English).
  - An overview of developed or revised curricula.
  - Environmental management practices.
  - Environmental projects development and management.
  - Geomatics and modelling.
  - Models for environmental risk assessment.
  - Philosophy of science.
  - Practice learning in university teaching.
  - Science methodology.
  - Sustainable development.
  - An overview of developed or revised curricula.
  - Scientific principles of biodiversity conservation.
  - Current issues of modern ecology.
  - Forest ecology.
  - Environmental science.
  - Atmospheric dynamic process – air pollution risk assessment.
  - Urban water management: the city blueprint approach.
  - Soil contamination and remediation technology.

- Sustainability & water: ecohydrological processes.
- Environmental risk assessment and management.
- Protected areas and its sustainability.
- Plant biochemistry.
- Land use and pasture management.
- Research methodology of science.
- Climatology and glaciology.
- Natural resources and environmental economics - Revised by Assoc. Prof. Nguyen Thi Van Ha, HCMUNRE, Vietnam.
- Solid waste and hazardous waste treatment engineering
- Revised by Dr. Nguyen Xuan Truong, Assoc. Prof. Nguyen Thi Van Ha, Dr. Huynh Thi Ngoc Han, HCMUNRE, Vietnam.
- Strategic environmental assessment - Developed by Assoc. Prof. Nguyen Thi Van Ha, Dr. Nguyen Lu Phuong, Dr. Thai Phuong Vu, HCMUNRE, Vietnam.
- Ecological engineering - Revised by Dr. Huynh Thi Ngoc Han, Assoc. Prof. Le Hoang Nghiem, HCMUNRE, Vietnam.
- Wastewater treatment - Revised by Dr. Thai Phuong Vu, Assoc. Prof. Le Hoang Nghiem, Assoc. Prof. Ton That Lang, Dr. Huynh Thi Ngoc Han, HCMUNRE, Vietnam.
- Integrated air quality management - Revised by Assoc. Prof. Nghiem Trung Dung, INEST, HUST.
- Indoor air pollution control - Revised by Assoc. Prof. Nghiem Trung Dung, INEST, HUST.
- Climate change and mitigation challenge in developing countries – Developed by Dr. Ly Bich Thuy, Assoc. Prof. Hoang Thi Thu Huong, INEST, HUST, Dr. Nguyen Ngoc Huy.
- Energy governance and management – Developed by Assoc. Prof. Nguyen Thi Anh Tuyet, INEST, HUST.
- Research design: theory and practice – Developed by Dr. Van Dieu Anh, INEST, HUST.
- Trans-boundary water management – Developed by Assoc. Prof. Hoang Thi Thu Huong.
